Do you know what is planned for 2021? Educate yourself.

Firstly, I would like to say right off the bat: THESE ARE NOT MY OPINIONS OR THOUGHTS. What I am presenting to you today, is simply exact quotes, statements, and videos FOR YOU TO SEE FOR YOURSELF HOW EVERYTHING THAT IS HAPPENING IN THE WORLD RIGHT NOW IS SETTING THE STAGE FOR A BRAND NEW ECONOMIC AND WORLD SYSTEM (unless we slow it or stop it of course, which is very plausible). I have spent hours & hours carefully combing through articles and videos to share with you today right from "The World Economic Forum" which is in collaboration with the UN.

A 10 year plan for a new global economic and world order has been initiated by the UN which is really funded by the richest global elite of the world. ***In a nutshell:*** we are undergoing a monumental shift toward a new globalist world order of totalitarianism where all of its citizens (slaves) can only use digital cash that's tied to their biometric & vaccine status data where we are tracked 24 hours a day.

Create a pandemic.

Destroy the economy.

Usher in "The Great Reset" and then "The Fourth Industrial Revolution."

This post is part 3 to a series I have written proving that we are being played & manipulated.

Part 1: <https://www.gracevanberkum.com/post/we-are-being-played-please-read>

Part 2: <https://www.gracevanberkum.com/post/2010-rockefeller-lock-step-document-coming-to-life-right-now-time-to-wake-up>

Let's begin:

So this was written in 2016 by the founder of The World Economic Forum.

<https://www.weforum.org/agenda/2016/01/the-fourth-industrial-revolution-what-it-means-and-how-to-respond>. (After more research I can see that the exact same article was actually posted in [2015 on the Foreign Affairs](#) website, after the Sustainable Development Goals was announced by the UN.)

The Fourth Industrial Revolution: what it means, how to respond

Take a look. Everything I have quoted below is from this article. Also very important to watch the accompanying video in this article link. <https://www.weforum.org/agenda/2016/01/the-fourth-industrial-revolution-what-it-means-and-how-to-respond>

Now let's take a look at some of the highlights taken right from The World Economic Forum website!):

In 2019:

[New York, USA, 13 June 2019 – "The World Economic Forum and the United Nations signed today a Strategic Partnership Framework outlining areas of cooperation to deepen](#)

institutional engagement and jointly accelerate the implementation of the 2030 Agenda for Sustainable Development."

With just under ten years left to achieve the Sustainable Development Goals, world leaders at the SDG Summit in September 2019 called for a Decade of Action and delivery for sustainable development, and pledged to mobilize financing, enhance national implementation and strengthen institutions to achieve the Goals by the target date of 2030, leaving no one behind. (Agenda 2030 which really is an updated version of Agenda 21.)

January 2020 World Economic Forum Annual Meeting, DAVOS-KLOSTERS, SWITZERLAND:
"This is the decade of change."

2020: A pandemic begins to prepare us for **"The Great Reset."**

The WEF website states, *"There are many reasons to pursue a Great Reset, but the most urgent is COVID-19."* So the Great Reset of the global economy flows from Covid19 and the "opportunity" it presents.

On June 3, 2020, WEF chairman Klaus Schwab released a video announcing the annual theme for 2021: "The Great Reset."

Now is the time for a 'great reset'

In every crisis, there is an opportunity

Image: Unsplash

Wait, what does that say on the bottom left of the photo?? (right from the website). It says "IN EVERY CRISIS, THERE IS AN OPPORTUNITY."

Make no mistake, the Great Reset is no spur-of-the moment idea of Schwab and friends. The WEF website states, ***"COVID-19 lockdowns may be gradually easing, but anxiety about the world's social and economic prospects is only intensifying. There is good reason to worry: a sharp economic downturn has already begun, and we could be facing the worst depression since the 1930s. But, while this outcome is likely, it is not unavoidable."***

The WEF sponsors have big plans:" (again, this is right from the WEF website).....***"the world must act jointly and swiftly to revamp all aspects of our societies and economies, from education to social contracts and working conditions. Every country, from the United States to China, must participate, and every industry, from oil and gas to tech, must be transformed. In short, we need a "Great Reset" of capitalism."***

WOW. This is big stuff.

Schwab reveals more of the coming agenda: ***"...one silver lining of the pandemic is that it has shown how quickly we can make radical changes to our lifestyles. Almost instantly, the crisis forced businesses and individuals to abandon practices long claimed to be essential, from frequent air travel to working in an office."***

Read more on The Great Reset here with direct quotes from the WEF website: (all quotes below taken from here, the actual website!)

<https://www.weforum.org/agenda/2020/06/now-is-the-time-for-a-great-reset/>

<https://www.globalresearch.ca/davos-great-reset/5715515>

Radical changes

Schwab reveals more of the coming agenda: "...one silver lining of the pandemic is that it has shown how quickly we can make radical changes to our lifestyles. Almost instantly, the crisis forced businesses and individuals to abandon practices long claimed to be essential, from frequent air travel to working in an office." These are supposed to be silver linings?

He suggests that those radical changes be extended: "The Great Reset agenda would have three main components. The first would steer the market toward fairer outcomes. To this end, governments should improve coordination... and create the conditions for a "stakeholder economy..." It would include "changes to wealth taxes, the withdrawal of fossil-fuel subsidies, and new rules governing intellectual property, trade, and **competition**."

The second component of the Great Reset agenda would ensure that, "investments advance shared goals, such as equality and sustainability." Here the WEF head states that the recent huge economic stimulus budgets from the EU, USA, China and elsewhere be used to create a new economy, "more resilient, equitable, and sustainable in the long run. This means, for example, building 'green' urban infrastructure and creating incentives for industries to improve their track record on environmental, social, and **governance (ESG) metrics**."

Finally the third leg of this Great Reset will be implementing one of Schwab's pet projects, the Fourth Industrial Revolution: "The third and final priority of a Great Reset agenda is to harness the innovations of the Fourth Industrial Revolution to support the public good, especially by addressing health and social challenges. During the COVID-19 crisis, companies, universities, and others have joined forces to develop diagnostics, therapeutics, and possible vaccines; establish testing centers; create mechanisms for tracing infections; and deliver telemedicine. Imagine what could be possible if similar concerted efforts were made **in every sector**." The Fourth Industrial Revolution includes gene-editing biotech, 5G telecommunications, Artificial Intelligence and the like.

After "The Great Reset" comes "The 4th Industrial Revolution".

(Agenda 2030 /Sustainable Development Goals/ Green New Deal in effect):

(If we compare the details of the 2015 UN Agenda 2030 with the WEF Great Reset we find both dovetail very neatly. The theme of Agenda2030 is a "sustainable world" which is defined as one with income equality, gender equality, vaccines for all under the WHO and the Coalition for Epidemic Preparedness Innovations (CEPI) which was launched in 2017 by the WEF along with the Bill & Melinda Gates Foundation.)

Highlights of this 2015 article, however I highly encourage you to read it yourself. And watch the video & listen VERY CAREFULLY, right from the WEF website. Then listen again.

(do you know what **"trans-humanism"** is???)

The Fourth Industrial Revolution: (right from the WEF article on the website!):

<https://www.weforum.org/agenda/2016/01/the-fourth-industrial-revolution-what-it-means-and-how-to-respond>

"The transformation will be unlike anything humankind has experienced before."

"A fusion of technologies that is blurring the lines between the physical, digital, and biological spheres" (accelerated human augmentation)

"...combining computational design, additive manufacturing, materials engineering, and synthetic biology to pioneer a symbiosis between microorganisms, our bodies, the products we consume, and even the buildings we inhabit."

"The result is a job market with a strong demand at the high and low ends, but a hollowing out of the middle."

"A winner-takes-all economy that offers only limited access to the middle class is a recipe for democratic malaise and dereliction."

"Discontentment on social media can also create and propagate unrealistic expectations as to what constitutes success for an individual or a group, as well as offer opportunities for extreme ideas and ideologies to spread."

"Governments will gain new technological powers to increase their control over populations, based on pervasive surveillance systems and the ability to control digital infrastructure."

"Ultimately, the ability of government systems and public authorities to adapt will determine their survival. If they prove capable of embracing a world of disruptive change, subjecting their structures to the levels of transparency and efficiency that will enable them to maintain their competitive edge, they will endure. If they cannot evolve, they will face increasing trouble."

"Agile governance...this means regulators must continuously adapt to a new, fast-changing environment, reinventing themselves so they can truly understand what it is they are regulating."

"Modern conflicts involving states are increasingly “hybrid” in nature, combining traditional battlefield techniques with elements previously associated with nonstate actors. The distinction between war and peace, combatant and noncombatant, and even violence and nonviolence (think cyberwarfare) is becoming uncomfortably blurry."

"The Fourth Industrial Revolution will change not only what we do but also who we are. It will affect our identity and all the issues associated with it: our sense of privacy, our notions of ownership, our consumption patterns, the time we devote to work and leisure, and how we develop our careers, cultivate our skills, meet people, and nurture relationships.and sooner than we think it may lead to human augmentation."

"....sometimes I wonder whether the inexorable integration of technology in our lives could diminish some of our quintessential human capacities, such as compassion and cooperation." (WTF!!!)

"Discontent can also be fueled by the pervasiveness of digital technologies and the dynamics of information sharing typified by social media." (pertaining to people fighting against global governance)

".....governments will gain new technological powers to increase their control over populations, based on pervasive surveillance systems and the ability to control digital infrastructure." (5G)

".....the redistribution and decentralization of power that new technologies make possible."

"Debates about fundamental issues such as the impact on our inner lives of the loss of control over our data will only intensify in the years ahead. Similarly, the revolutions occurring in biotechnology and AI, which are redefining what it means to be human by pushing back the current thresholds of life span, health, cognition, and capabilities, will compel us to redefine our moral and ethical boundaries."

"The tracking and sharing of information about us is a crucial part of the new connectivity. Debates about fundamental issues such as the impact on our inner lives of the loss of control over our data will only intensify in the years ahead. Similarly, the revolutions occurring in biotechnology and AI, which are redefining what it means to be human by pushing back the current thresholds of life span, health, cognition, and capabilities, will compel us to redefine ***our moral and ethical boundaries.***"

AND THE MOST SHOCKING STATEMENT AT THE END OF THIS ARTICLE RIGHT

FROM THE [WEF WEBSITE](#):

"In its most pessimistic, dehumanized form, the Fourth Industrial Revolution may indeed have the potential to "robotize" humanity and thus to deprive us of our heart and soul."

Klaus Schwab, Founder and Executive Chairman, World Economic Forum (2015/2016)

Translation: TRANSHUMANISM.

Eventually turning us into more robots than humans. (Again, just watch the video above RIGHT FROM THE WEBSITE, to hear it in their own words RIGHT FROM THEIR WEBSITE!)

Some other interesting reads about global governance from 2016:

****America's dominance is over. By 2030, we'll have a handful of global powers:**

<https://www.weforum.org/agenda/2016/11/america-s-dominance-is-over/>

****WHEN HUMANS BECOME CYBORGS:** <https://www.weforum.org/events/world-economic-forum-annual-meeting-2020/sessions/when-humans-become-cyborgs>

****DNA, TRANSHUMANISM, VACCINES:**

https://vaxxter.com/dna_vaccines_transhumanism/

Immunization linked
to ...

14 of 17 SDGs

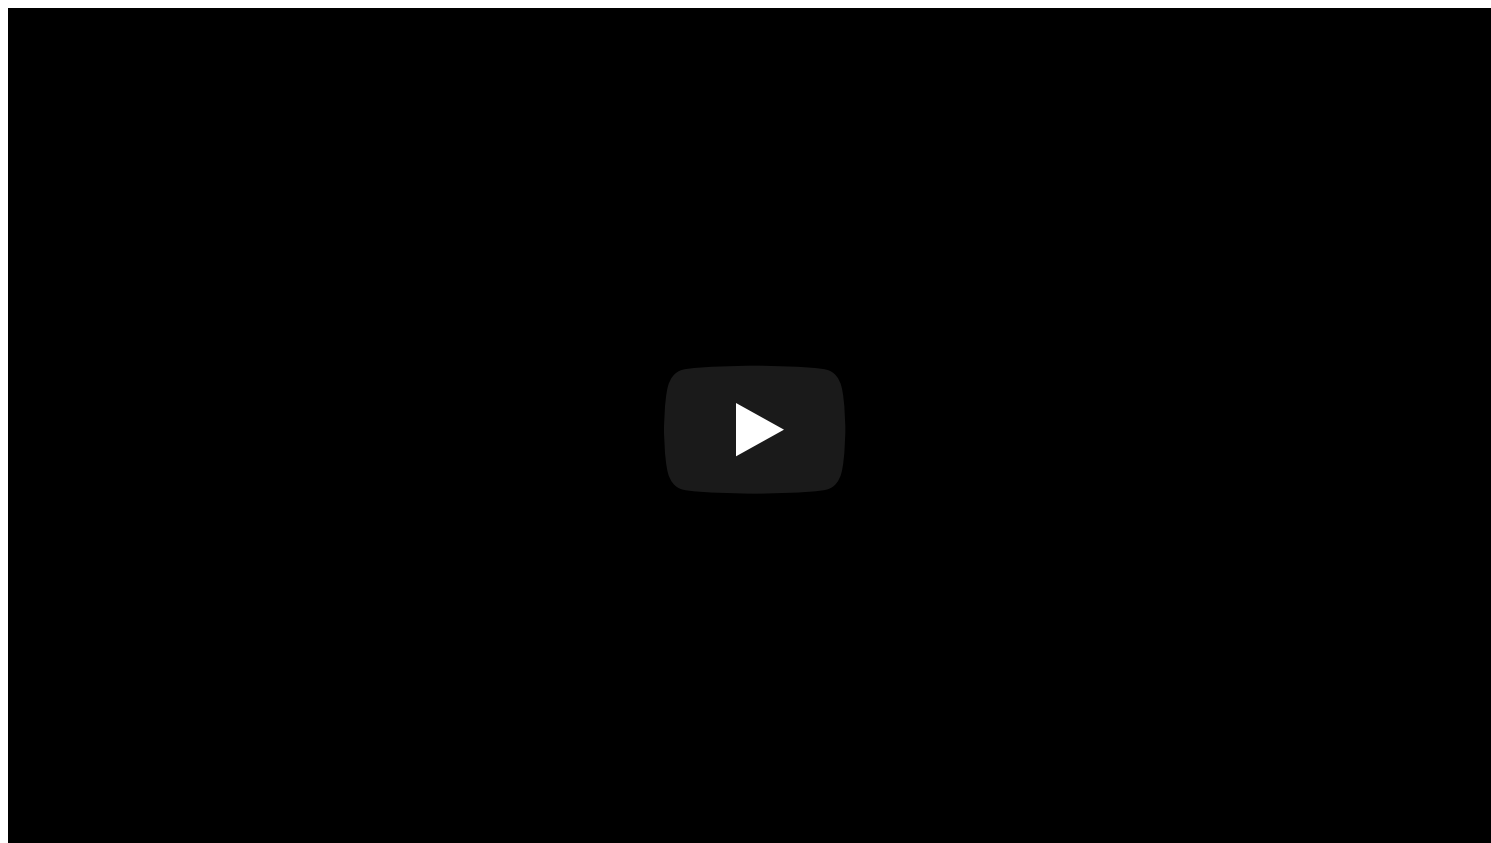

... broad set of
compelling arguments
for value of vaccines

**2021-2030
Innovation**

I would also like to mention, "The Great Reset" & "The Fourth Industrial Revolution" can not be successful without worldwide vaccine implementation. 14 of the 17 Sustainable Development Goals (which is an alternative fluffy name for Agenda 2030) CAN NOT BE SUCCESSFUL WITHOUT VACCINES (No wonder Gates funds the World Economic Forum and is pushing vaccines so hard right now!) You can see the clip at 11 minutes in the informative video below:

****WATCH The Great Reset Plan Revealed**:**

WHAT CAN WE DO? WE CAN STAND UP & SPEAK UP.

<https://www.gracevanberkum.com/post/stand-up-speak-up-how-do-we-do-this>

Read my other posts here:

Part 1: WE ARE BEING PLAYED. PLEASE READ. <https://www.gracevanberkum.com/post/we-are-being-played-please-read>

Part 2: 2010 Rockefeller "Lock Step" Document Coming To Life Right Now. Time To Wake Up. <https://www.gracevanberkum.com/post/2010-rockefeller-lock-step-document-coming-to-life-right-now-time-to-wake-up>

That's it for now. I have tried my best to provide people with in-your-face information to connect your own dots. I did not write any of this.....most of this entire article has been taken right out of the WEF website as I keep mentioning over & over. If you can not see that what is happening right now is just one small aspect of a bigger plan, then I can not help you. I have heavily researched all my posts and spent hours and hours writing this up for the world to see. Because I care about my world and the future of our children. I can not just sit back & watch this unfold. Everyone has their own unique part in this, and mine is to write about this as clearly & succinctly as I can for those that need to read it.

The world is waking up and this is becoming common knowledge.

**I hope you are aligning yourselves with other truth seekers.
Don't let negativity or drama drain you.**

If you have read this far, thank you.
Let me know if you have any requests for more articles.
