Targeted Justice, a civil liberties organization representing victims of unlawful surveillance and harassment, has fired off a letter to Department of Homeland Security (DHS) Secretary Kristi Noem, demanding an immediate end to what they call "un-American and illegal" programs funded by the agency.

The letter, penned by Ana L. Toledo, Esq., Counsel for Targeted Justice, accuses DHS of orchestrating a sprawling network of surveillance, harassment, and psychological operations through Fusion Centers, targeting innocent Americans under the guise of counterterrorism.

The letter claims DHS is bankrolling a shadowy campaign against over 300,000 Americans wrongfully placed on the FBI's Terrorist Screening Database (TSDB).

Citing Department of Justice (DOJ) Inspector General audits, Targeted Justice alleges that 97% of TSDB entries have "no known ties to terrorism," branding the list a tool to silence whistleblowers, political activists, January 6th defendants, and parents protesting at school boards—groups she labels as "enemies of the Deep State."

Targeted Justice VP Christopher Mettlen told TGP, "[We] have been advocating for Europe and South Africa as we have our own country using fusion centers to stalk and harass; here is a copy of the letter we sent to Secretary Noem:"

RE: DHS-FUNDED CRIMES

Honorable Secretary Noem:

In light of the policies set forth by President Donald J. Trump's February 18, 2025 Executive Order titled "Radical Transparency About Wasteful Spending", this is to bring to your attention the un-American and illegal activity orchestrated and funded by the Department of Homeland Security that you should order to be immediately eradicated.

During your confirmation hearings, referring to the agency you were appointed to direct, Senator Rand Paul stated:

"There is not a single comprehensive list to address all the collaborative relationships that the department and its components engage in...that we can't describe them."

The reason why DHS refused to describe some of these "collaborative relationships" to the Homeland Security Committee is because many of them are patently illegal and in violation of the Fourth Amendment trample over the most basic civil and human rights of those illegally targeted by the government.

There are over 300,000 Americans that Federal Bureau of Investigation's officials have attested under penalty of perjury have been placed on the Terrorist Screening Database without reasonable suspicion and "under secret criteria."

The Department of Justice's Office of the Inspector General audit reports concluded that 97% of the people on the TSDB have "No known ties to terrorism" and do not represent a threat to national security. Only .28% of the list contains the names of actual "known and suspected terrorists." The vast majority of this "blacklist" is reserved for whistleblowers, activists, J6ers, parents that protest at school boards, and any enemy of the Deep State.

DHS imparts the directives implemented in the Fusion Centers that carry out the illegal psychological operations against the people illegally placed on the TSDB. Together with their Citizen Corps co-conspirators, state and federal officials engage in organized stalking, spying, harassment, street theater, vandalism, break-ins, and a myriad of illegal tactics to obliterate these "blacklisted" individuals.

These DHS-funded programs are unconstitutional and even criminal. They mirror the Stasi police state that is un-American and militates against the most basic precepts of the America First agenda. Under President Trump's order, they should be eradicated from DHS operations.

I urge you to order an immediate halt to the funding of the illegal gangstalking programs at DHS, (also coded as "counterterrorism"). Consistent with the EO cited above, I urge you to inform the public about the closure of this nefarious chapter in the history of DHS, along the implementation of measures that will ensure such crimes against humanity will never again be paid for the taxpayer dollars that fund DHS.

Thank you for your prompt attention to this urgent matter.

The accusations come alongside Targeted Justice's ongoing \$1.3 billion lawsuit against the Biden regime's Department of Justice (DOJ), Federal Bureau of Investigation (FBI), and DHS, filed in the U.S. District Court in Houston in 2023 (Case 4:23-cv-1013), which claims a secretive "McCarthy Blacklist" within the FBI's Terrorist Screening Database (TSDB) is being used to harass and torture civilians.

Victims named in the lawsuit state they have no way to clear their names, no charges filed, no evidence presented, and no access to legal remedies. Violations of the 4th, 5th, and 6th Amendments are central to the constitutional claims in the case.

Among the most disturbing claims in the lawsuit are allegations that “microwave weapons” and other forms of directed energy technologies have been used on innocent civilians — leading to unexplained injuries, psychological trauma, and symptoms similar to the so-called “Havana Syndrome” reported by U.S. diplomats overseas, which was blamed on Russia.

Included in the group's documentation are images of victims with skin lesions, said to be consistent with non-lethal weapon testing.

They further allege that the list has been distributed to law enforcement through the National Crime Information Center (NCIC), where targets are flagged under vague “handling codes,” resulting in innocent civilians being labeled as “suspected terrorists”.

Toledo also commended America First Legal for demanding transparency, applauding its formal request to Director of National Intelligence Tulsi Gabbard to declassify and release the Biden regime's secretive domestic surveillance and censorship blueprint.

It can be recalled that several Federal Air Marshal (FAM) whistleblowers have come forward to expose that Tulsi Gabbard was enrolled in the controversial Quiet Skies program.

Quiet Skies is a program by the TSA that uses air marshals to track and observe suspicious passengers.

.@DNIGabbard millions of victims of the intelligence community are waiting on you to make things right. <https://t.co/P64ww5O45h>
